ABSTRACT

A continent-wide assessment of progress toward the 2030 Agenda and Agenda 2063 amid climate, fiscal, demographic, food, and energy pressures.

KEYWORDS 2030 Agenda, Agenda 2063, sustainable development

This report assesses Africa's development trajectory during the final phase of the 2030 Agenda and connects implementation challenges to wider economic and geopolitical pressures.

This library record accompanies the official publication and does not reproduce it.

WHAT THIS DOES NOT ESTABLISH

A library record for an external publication. The assessment, figures and projections are the African Development Bank's.
